Sierra Club Executive Director: *Carl Pope*

Sierra Club, Juneau Group: *Mark Rorick*

On April 6, 2009, in a presentation to the City and Borough of Juneau Assembly, your mining and Water Quality Organizer, Rob Cadmus, promised that SEACC supported Kensington jobs. This was not the only time you have said you supported the jobs of Kensington.

The Supreme Court has held the permit is lawful and has confirmed the expertise and judgment of all permitting agencies including the Army Corp of Engineers and EPA in issuing the Kensington permits. We call upon you to fulfill your promises and stand down on your further attacks. All parties are in agreement that the Kensington plan is the lawful and least environmentally impacting.

The time has come to show your true character and that you can be trusted. We ask you in decency and respect for fellow Alaskans experiencing economic distress and high unemployment to follow through with your promise and take action consistent with your support of the jobs today and allow the Kensington project to be completed without further delay.
