

To Our Southeast Alaska Friends Thank You! Gunalchéesh!

Coeur Alaska wishes to thank everyone whose unwavering support helped us to reach the point where we can now complete construction of the Kensington Mine. The U.S. Supreme Court and now the U.S. Army Corps of Engineers agree the Kensington project, which is already 90% complete, can move into production.

We have the greatest confidence in our Coeur Alaska team, and we know that the many Alaskans to be employed at Kensington will join us in our ongoing commitment to *Produce and Protect*.

Production at Kensington is expected to begin in the second half of 2010.

Of our many incredible supporters, we especially recognize the following:
