

TRUTH

“SINCERITY IN ACTION, CHARACTER AND UTTERANCE”

as defined by Webster

> What SEACC Said:

SEACC's Executive Director, Lindsey Ketchel:

“What (SEACC) intends to do, following the recent Kensington mine Supreme Court decision ... Although we may not agree with the U.S. Supreme Court, its ruling ends the legal case. We will not drag out this litigation ... bringing new litigation on tangential issues, would simply be a delay and is the wrong thing to do.”

> The Point:

SEACC implies that they will go along with the Court and not drag out the issue or delay Kensington because it's “the wrong thing to do.”

> What They Did:

SEACC, Sierra Club and others, wrote a letter to President Barack Obama:

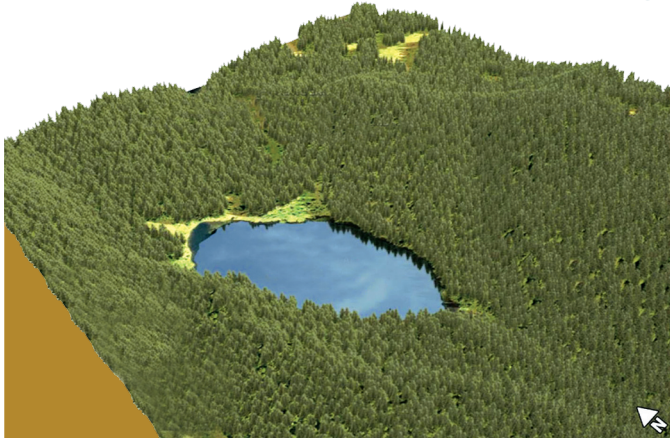

“We write to request that you direct the Environmental Protection Agency (EPA), the Army Corps of Engineers (Corps), and the Council on Environmental Quality (CEQ) to take immediate coordinated action to avert the adverse effects of the Supreme Court's decision in Coeur Alaska, Inc. v. Southeast Alaska Conservation Council...”
